

**Dear Customer / Tenant:**

We have been engaged by the Management of the building to carry out a routine pest control service program in the premises occupied by you. This service is being performed to prevent/eliminate **RODENT** infestations.

The service will be performed on \_\_\_\_\_. It is not necessary for you to vacate your premises after the service is complete.

In order to enable our Pest Management Professionals to apply an effective treatment, we require your cooperation in carrying out the following instructions:

- Remove **all items** from the floor, walls, in all closets, and linen cupboards. These items can be placed on beds and do not require covering.  
**NOTE:** Hanging clothes can remain in closets and will not be affected by the treatments.
- The cupboard area under sinks should also be cleared.
- Remove items from top of fridge, as we may need to pull it out.
- Ensure no food is left out for mice to feed on. Place all food in fridge, freezer or sealed Tupperware. This includes pet food and food dishes.
- Rodent control devices will be strategically placed and should not be touched or moved.

Thank you for your cooperation!
